SUMMARY

Passionate Frontend Web Developer with a strong background in self-driven projects and freelance work since graduating in June 2022. Excited to bring my expertise and enthusiasm to a dynamic company environment.

WORK EXPERIENCE

Frontend Supervisor | Knowledge Academy   **Oct, 2023 - Present**

Supervising, providing follow-up, delivering lectures to participants, and offering guidance on appropriate solutions and best practices.

Independent Contractor and Freelancer   **Jul, 2022 - Present**

Building full stack websites for local businesses and clients. Creating custom web solutions. Focused on meeting diverse needs and goals.

- **Mercy Pharmacy**

Developed a MERN stack website for users seeking care products. Built a full dashboard for managing products, categories, and more. Integrated Node.js, Express.js, MongoDB, Joi, Cloudinary, React.js, Vite, Tailwind CSS, Framer Motion, i18next, and Swiper for a dynamic user experience.
